

Career Objective

I aim to leverage my skills in full-stack development and AI to build smart, user-centric solutions. I'm driven by innovation and continuous learning, and I seek to contribute meaningfully to impactful tech teams.

Projects

- Capstone Management Hub - Academic Project Management Platform

Nov 2025

Tech stack: React.js, Node.js, Express.js, MongoDB, JWT, Docker, Jenkins CI/CD

Objective: Built a secure, full-stack role-based platform for managing academic capstone projects with multi-user collaboration, real-time submissions, evaluations, and administrative oversight.

Learning Outcome: Gained expertise in role-based access control (RBAC), RESTful API design, Docker containerization, CI/CD with Jenkins, and building scalable full-stack applications with MongoDB and React.
- DearDiary– AI-powered Personal Diary Platform

Jul 2025

Tech stack: React.js, Node.js, Express.js, MongoDB, JWT, Gemini AI API, HTML, CSS

Objective: Built a secure full-stack diary app with dual writing modes—manual and AI-assisted—using Gemini AI. Enabled authentication, 100% CRUD functionality, and protected routes for over 50 active test users.

Learning Outcome: Gained expertise in AI integration, prompt engineering, and modular full-stack architecture. Improved user interaction flow and reduced API response time by 30% through backend optimization.
- Rail Madad– AI-Driven Automation for Efficient Complaint Resolution

Sep 2024

Tech stack: Python, Node.js, React.js, HTML, CSS, MySQL, AWS, Google Cloud

Objective: Successfully automated 85% of complaint resolution processes, significantly reducing resolution time by 40%, improving operational efficiency, and enhancing accuracy.

Learning Outcome: Gained expertise in AI-driven automation, cloud deployment, and database management, enabling the creation of scalable solutions for real-time complaint resolution efficiency.

Technical Skills

Languages: C, C++, Python, JavaScript

Web Development: HTML, CSS, React.js, Node.js, Express.js, JWT Authentication

Databases: SQL Server, MySQL, MongoDB, PostgreSQL

Cloud DevOps: Git, GitHub, Docker, Docker Compose, Jenkins CI/CD, Render, Vercel, Netlify, Postman

Computer Vision: OpenCV, Haar Cascade, Real-time Image Processing

Soft Skills: Problem-Solving, Team Collaboration, Project Coordination, Resilience

Certificates

- AWS Certified Cloud Practitioner – GeeksforGeeks

Jun 2025
- Full-Stack Development using MERN – CipherSchools

Jul 2024
- SQL for Data Science – Great Learning

Mar 2024
- Understanding Cloud Fundamentals – LinkedIn Learning

Jan 2024

Achievements

Led a team of 5 developers to secure 1 lakh in funding for “EasyCabs”, a ride-sharing solution.

Participant, Smart India Hackathon 2024 -developed “Rail Madad”, an AI driven system for efficient complain resolution.

Event Manager - Managed a gaming event with 100+ participants, ensuring a 30% increase in engagement.

Education

Lovely Professional University	since Aug 2022
Computer Science and Engineering — CGPA: 7.46	Jalandhar, Punjab
Tirumala College	2020 – 2022
12 th — Percentage: 92%	Rajahmundry, Andhra Pradesh
Oakwood School	2019 – 2020
10 th — Percentage: 90%	Rajahmundry, Andhra Pradesh
